To: Melaine Bryant <m.bryant@mickaboo.com>, vincent@mickaboo.com

Hi Vincent and Melaine,

We are writing to you about the alternative version of the Mickaboo Basic Bird Care Class which you created on the LearnWorlds platform, without collaborating with the Basic Bird Care Class teachers.

Vincent informed us that Melaine had paid for access to the platform and hoped to be reimbursed for its use. You were both informed that the version provided was not acceptable.

The Board of Directors expressed interest in the platform and approach and delegated us to evaluate your work, with an emphasis on producing content acceptable to and supported by the existing class teachers. Therefore a working group including current class teachers was convened.

We and the working group reviewed your work and requested specific edits. After a significant span of time when you did not respond to emails, you declined to make the remaining changes and categorized the unfulfilled changes as impossible, illogical, nitpicky, stylistic, and silly.

This is not acceptable. We need you to do the following things:

1. Make all of the required edits to the class on the LearnWorlds platform by 5:00 pm, May 13, 2025.
2. If any of the required edits are technically infeasible, briefly explain why by 5:00 pm on the above date [May 13, 2025]. The feasibility of making any type of edit may influence the decision to use or not to use LearnWorlds going forward.
3. Obtain final signoff for the finished class content, containing all specified edits and to a standard considered acceptable by Michelle Yesney, by 5:00 pm May 14, 2025.
4. Provide admin-level account access (with full permissions) for the LearnWorlds account associated with the Basic Bird Care class to Sarah Lemarie ([sarah.lemarie@mickaboo.com](mailto:sarah.lemarie@mickaboo.com)) by 5:00 pm May 14, 2025.

It is important that we receive these materials from you, by the specified dates and times.

Signed on behalf of the Executive Committee of the Board of Directors for Mickaboo Companion Bird Rescue
